

## **Dragon FC Roster Guidelines:**

1. We look at attendance of current players on the roster to assess whether their spot should open up.
2. We look at whether dues were paid "on time" or at all for current players.
3. New players must have contact with the manager via email prior to filling a "spot" on the roster.
4. All potential players should be given the same "line" from any Dragon player. Something along the lines of "Attendance/commitment and positive attitude are integral to our team. Potential players must come to a few practices (2-3) before having a spot on the team and play in games."
5. No new players will play in a game until they have received the OK from the officers (to be communicated through the Manager), completed all paperwork, paid the team dues, and coordinated receiving a uniform with equipment manager.
6. New players will need to have paperwork completed and monies paid prior to arriving at their first game in order to play.
7. Existing players must pay dues by the given deadline or have communicated with manager the date in which he/she will pay them prior to the first game.
